

JOIN SEATTLE'S FASTEST WIRELESS HOTSPOT NETWORK AND REDUCE YOUR INTERNET AND TELEPHONE COSTS!

CAFE & PUB PACKAGES – HOTSPOT WIRELESS SERVICES

Atlas Networks is bringing the future to Seattle, with city-wide high speed Internet service, and services custom-designed to meet the needs of restaurant and venue operators.

Whether you're a coffee house or a Yoga studio, customers and staff increasingly rely on your Internet service. Our Cafe & Pub packages provide fast, secure and reliable Internet for your team and your customers alike. Best of all, our local team manages everything, from design to installation, from maintenance to updates and troubleshooting – freeing you to stay focused on creating an amazing experience!

As a Seattle company, the Atlas team truly cares about supporting our local business community through great partnerships that create value in both directions. The goal with our Cafe & Pub packages is simple: deliver amazing Internet and telephone services that makes our customers more successful. We do this by combining the strength of our brand with yours. The end result is a co-branded, cost effective managed service that is truly one-of-a-kind.

HOTSPOT DETAILS

Great WiFi starts with great planning! Before your installation, we'll visit your location and design a wireless network that reflects the layout and usage of the space. During your installation, we'll program and install our equipment and limited Ethernet cabling, and activate both internet circuits. Finally, we'll calibrate and test the wireless network to provide just the right amount of signal everywhere.

Our Cafe & Pub packages are intended to be the foundation of a great, local first partnership, and go much further than simply connecting your business to one of the fastest Internet providers in the PNW. When you work with Atlas, you're working with Seattle's only locally owned ISP. As a local business, we understand how important your customers are. Our goal is to deliver a truly great co-branded technology experience for your customers, freeing you to focus on what you do best: run your business.

Free Internet access for your customers
Secured Internet access for your business
Full coverage, no room left behind
100Mbps > Gigabit Speeds

Co-branded launch page
Banquet/event special services
Support wireless VoIP phones
Fully managed & monitored

TELEPHONE SERVICES

The Atlas Networks Cafe Express Package includes hardwired and/or wireless VoIP phones packed with features.

Wireless VoIP handsets allow your staff to roam anywhere there is wireless hotspot service. Enjoy such features as call transfer between phones, auto attendant service to answer your calls when you're busy or after hours, customized or standard hold music and much more.

Service is tailored to meet your establishment's needs.

Keep your existing telephone number(s)
Add as many phones as you need
Fully customizable Auto Attendant
Customized or standard hold music
Add a fax line for only \$19.99/mo
800# services available
Wireless & hardwired phones
